Any other with the permission of the chair

Prof Morabada Mallikarjuna opined that there are certain delicate issues to be discussed and resolved before the implementation of NEP syllabus. He wanted to know whether all the faculty and the students admitted to First year UG Programmes 2021-22 are aware of the salient features and importance of NEP for the effective implementation. Further he suggested to get, if possible, feed-back from the stake holders regarding implementation of NEP. syllabus to bring qualitative changes in education. He said Open Elective Courses have provided the students ample scope to gain knowledge in their interested subjects.

Prof. Sujatha Kumari, UG Department of History raised the point about the number of courses that a student has to study under NEP-2020 and she felt that the students are burdened with too many courses and limitation to understand all of them together in the stipulated period.

Dr. S. Prathiba, Department of Botany opined that the NEP-2020 has reduced the scope for learning domain knowledge and acquiring enhanced skill-based knowledge. She expressed her concern over completion of the syllabus within the stipulated time.

Dr. M. Kumaraswamy opined that the NEP-2020 UG syllabi has been designed with common credit pattern for all the UG programmes and suggested for convenient modifications if required according to the credit pattern in the following years. Dr. B. Prabhuswamy COE said that only in the Humanity Courses there are such discrepancies and Science and Commerce programmes have no such issues

Prof. B. V. Sambashivaiah said that with NEP-2020 scheme students are having the opportunities of gaining multidisciplinary knowledge and it is not a burden on them as students are capable of acquiring new skill-based knowledge options. The NEP-2020 UG syllabi have been appropriately designed according to the Course wise credit pattern and the opinion of teachers is as usual not positive to some extent whenever changes are made in the curriculum structures. He advised that teachers should not have prejudiced mind-set but open for changes. We have just conceived the new ideas; it takes some time to digest the concepts and it is not the right time to give opinions. Principal requested the faculty to get books for the library as per the new NEP syllabus

Dr. Vijaya Manjunathaguru proposed vote of thanks.
