MCA Students Project Title 2022-2025

Sl. No.	Name	Project title
1	Akshara S	Credit Card Fraud Detection using Machine Learning
2	Anjali	Number of Humans Violating the Traffic When Crossing the Road (Not Crossing Through Zebra Mark)
3	Anusha B N	Learn to Drive with Reinforcement Learning
4	Anusha C K	Car crash detection and reporting in signal using machine learning approach
5	Apoorva S	Multiple tabbed screen in one page
6	Aruna R	A novel way to predict employee stress level using machine learning algorithm
7	BHAVYA G	Foreign language learning system
8	Bhoomika M	Coil position detection in Hot strip mill traverse line.
9	Chandan N	ID number detection of iron slab when it moves after making process in steel industry
10	Chandana S	Spammer Detection and Fake User Identification on Social Networks
11	Chandana T M	Mouse operation based on human face and eyes using deep learning
12	ChandraKala Nadipalli	Smart subjective answer assignment
13	Devika.S	A smart medical system to identify the side effects of drugs using ML
14	DHANUSH B S	A Comprehensive Study on Social Network Mental Disorders Detection via Online Social Media Mining
15	Dilip C J	Higher education access prediction
16	Fouzia Sultana	Automation of lung cancer prediction using machine learning
17	Fouzia Sultana	An automated for lung cancer prediction using machine learning
18	Harshitha K L	DRIVER DROWSINESS DETECTION USING LIVE WEB CAMERA
19	K Lakshitha Monnappa	Clean commute an andriod app for encouraging low-carbon transportation
20	Kavana	video steganography
21	Karthik S P	Journey finder
22	Mamatha S	Predicting Socio-Economic Status from Satellite Imagery using ML
23	Manoj K S	Bird and Drone detection using YOLO V4/V5
24	Manoj M	Human Detection System for SCP Machine To fit a camera on the SCP machine for human detection during the SCP operation
25	Mithila B	Loan over dues and generate the report
26	Monica S	prediction of employee attrition rate using medicine learning approaches
27	Nagapriya M	Parkinson's disease detection using machine learning
28	Namratha S	Crop and land size detection using satellite imaging
29	Nanjundaswamy N	Accurate detection & recognition of Electric Vehicles Number Plate
30	Nisarga P	Hand rail holding detection during human momet in staircase

Sl. No.	Name	Project title
31	Pavithra T Y	Plant species recognition for medicinal purposes using deep learning
32	Payal B G	Liver cancer detection using image processing and deep learning
33	Prajwal Raj.N	BotDetect: Deep Learning Framework for Social Bot Detection with Active Learning
34	Pratheek N	Detection of neuro fibroma using CNN
35	PREETHI V M	FOREST WILDFIRE DETECTION FROM SATELLITE IMAGES USING DEEP LEARNING
36	Priya c	Kannada Handwritten Script Recognition using Machine Learning Techniques
37	Rakesh K S	AI based on automatic personality assesment for children using speech analysis
38	Rakshitha H V	Investigating the Potential of Hand-Drawn Spiral Images for Parkinson's Disease Detection
39	Ranjani R Adi	Detection of Glaucoma in retinal fundus images using neural network
40	Rithik kumar	Analysis on weather forecasting
41	Sachin M	CNN-traffic sign detection and voice alerting solution
42	Sahana	Machine Learning-based Weed Detection in Agricultural Images using Deep Learning and Image Processing Techniques
43	Sahana M R	An Intelligent system to predict stroke and types using ML techniques
44	Sanjana G M	Decentralized application for crowd funding using ethereum block chain
45	Sarika. D	Food wastage reduction through donation
46	Sharath VC	Online dynamic hand gestures recognition
47	Sinchana HR	DISEASE PREDICTION USING MACHINE LEARNING
48	Soundarya c	Identifying misleading job advertisements through machine learning
49	Suhag L	Android application for blind people to detect objects
50	Suhas Gowda Y V	Smart card operating system for road transport using free software
51	Suneel j s	EDA automation
52	Sunil	MULTIPLE DISEASE PREDICTION USING MACHINE LEARNING
53	Supriya K	Credit Card Fraud Detection
54	Sushmitha	Flower classification using mobilenets
55	Umme Hani	Credit risk certification
56	Vaibhav v	Vehicle overspeed detection system for enhanced road safety
57	Vidhyashree K B	Machine Learning-based Recipe Reconstruction from Food Images
58	Vidya K M	Image segmentation -machine learning
59	VINAY. M	ADHAR BASED ONLINE VOTING SYSTEM
60	Kusuma R	Event management system
61	Abhijith N Shet	Thyroid Cancer Recurrence Prediction using machine learning
62	Kiran V	Cardless Atm transaction using Face and Fingerprint
63	Ruchitha K L	Smart attendance using fingerprint
64	RASHMI M	UPI fraud detection using machine learning
65	Geetha N	Weed prediction and classification using cnn and image processing
66	Vamshy NK	Design of smart sensor for real time water quality monitoring in IOT technology
67	Meghana C	Cryptocurrency price prediction using machine learning

Sl. No.	Name	Project title
68	Ramprasad R	Abstract cyclone classification using image processing and deep learning
69	Bhoomika v	Multiple Disease Prediction using Machine Learning
70	Suchithra	Face skin disease detection using deep learning
71	Pallavi N	Green drive: electric vehicle charging point finder and booking app
72	Jayanth S	Players auction system
73	Roopa Gadigegeppa Mugalakhod	Crop recommendation system for precision agriculture
74	Rajeshwari M	Aasaan Shaping: Crafting Seamless E-commerce Experience.
75	Kusuma M T	Handwriting profiling using deep learning
76	Ninganna basavaraj Ingalagi	Nifty 50 stock prediction using deep learning
77	Punya H S	Leaf disease prediction using deep learning
78	Spoorthy V Chavan	Morse code authentication systems using AI
79	Poorvik M	Fake news detection using ML and NLP
80	Anjali	Breast cancer detection using deep learning and image processing
81	Sindhu b V	Face spoofing detection using Deep learning
82	KRUTHIKA M	Heart disease prediction using machine learning algorithm
83	Tejaswini M	Gate pass monitoring system
84	SYED NISHAAT AHMED	CO to PO using Machine learning
85	Shreenidhi S	Intelligent traffic monitoring system for traffic roads using TensorFlow considering Machine Learning Approach"
86	Meghana. G	Abnormality detection from Chest Xray images using AI techniques
87	MANOJ A NANDEESH	EYE GAZE KEYBOARD
88	Pavithra N	Innovative Techniques in Early Glaucoma Detection using Deep learning
89	Mahadevaswamy b s	Cattle breed classification using machine learning
90	PRAJWAL H.R	Kitchen mate
91	Nischitha B	Predictive constructive model for cotton yield
92	Abhishek K Gowda	Visualization of power network topology based on graph theory
93	Syeda Noorain	Smart music player based on emotion detection
94	Mohammed Shahid	Smart rain water harvesting system using iot
95	Indresh M	Brain tumor stage-based recurrence patterns
96	Keerthana J	Safeguarding Against Cyber Threats: Phishing email Identification in corporate emails
97	NAMITH R	Abnormal event detection in college campus using temporal segment transformer
98	Chandan V	Stock price prediction using lstm network
99	SNEHA H S	CNN-Powered traffic sign detection and voice alerting solution in Machine learning
100	Kavya K	A Machine Learning-based Approach to Predicting Average Fuel Consumption in Heavy Commercial Vehicles
101	Soumya S Gangavati	Accident severity prediction using machine learning technique
102	Nayana T.S	Green corridor for Emergency vehicles in road network

Sl. No.	Name	Project title
103	G Gayathri	Non invasive detection of anemia using fingernail and tongue medical datasets by image processing
104	Deepak	Flight arrival delay prediction
105	Dharshini S L	Web based placement portal
106	Mohammed Fasi Altaf	3D based sign language recognition
107	Chandana S	Weapon detection
108	Pooja S	Deep learning based framework for robust traffic sign detection under challenging weather condition
109	Preetham C	Oral cancer detection
110	Nikhil	Abnormal event detection in college campus using temporal segment transformer
111	Harshith Urs N	Smart Plant Monitoring System using IOT
112	Mahadeva Prasad J	URL based phishing detection using Machine Learning
113	Kalyan K	Anomaly and suspicious activity detection using Machine Learning
114	Sanjay Kumar	Covered and uncovered face
115	Mohammed Affan	Crop (rice) price detection
116	Mohammed Aiman	Vehicle detection extraction using mining technique
117	Vivek K Gowda	Application of graph theory in power system, network visualization in control center
118	Akash K M	Jewel AI Enhanced AR Jewelry Try on experience
119	Ankitha Umesh C S	Gait analysis Using Machine learning
120	Anusha A S	Abnormal event detection in college hostel
121	Bharat R	Smart event finder
122	Chandana B M	AI powered intelligent road sign recognition and audio alerts for driver assistance
123	Chitrashree A Annigeri	Bikefixnow - your roadside rescue companion
124	Darshan A M	Coconut image classification system for identifying natural and hybrid varieties
125	Dheeraj Kumar B M	AI powered document and web question and answer system using rag
126	Divyashree H P	Investigation the potential of handdrawn spiral images for parkinson's disease detection
127	Jeevan K R	Automated early disease detection of mango crop using convolutional neural network
128	Kiran K M	AI driven cybersecurity threat detection
129	Lakshmi H B	A deep convolution neural network framework for detecting depression using eeg
130	Likitha T	Medical AI chatbot using multimodal
131	Madhu Shree L	Smart do AI task manager
132	Pallavi K	A secure and privacy preserving image steganography framework using zero knowledge proofs
133	Pavana U	AI virtual assistant system bot
134	Ramyashree C V	Vehicle speed detection using opencv
135	Ranjitha S P	Heart disease detection using machine learning and deep learning method
136	Rekha K M	Smart presence face recognition attendance system

Sl. No.	Name	Project title
137	Rumaan Moqthar	AI generated media detection using DIRE diffusion and CNN
138	Sandhra K Praveen	Emergency resource management system
139	Sandyashree P	Speech recognition and emotional analysis using machine learning
140	Sanjana K	Online bookstore management system
141	Shalini N B	Twitter clone for people problem solver with spam detection and sentiment analysis
142	Shariff Abdul Rehman Siddiq	Intelligent powered education system using NLP and ML
143	Skanda Kumar N	Virtual hub gesture based multi tool platform
144	Srilakshmi D	Calorie prediction and food recommendation system using deep learning
145	Suma B	Mobile based system for detection of chronic kidney using machine learning
146	Yasmin T	Vehicle health monitoring system using OCR
147	Yogendra M K	Secure mobile network identifying route hijacking in opportunistic scenarios
