# **ANNUAL REPORT OF THE CONTROLLER OF EXAMINATIONS 2021-22**

The National Education Policy (NEP-2020) has recommended Multi-Disciplinary Undergraduate Programmes with multiple exit and entry options with Certificate/Diploma/Degrees at each of the exits. Undergraduate curriculum needs to be focused on creativity, innovation, critical thinking, higher order thinking capacities, problem solving abilities, team work, communication skills, more in-depth learning and mastery of curricula across fields. In view of this, the College has taken the initiative to implement the same from the academic year 2021-22.

Government of Karnataka has issued an order (No. ED 260 UNI 2019 (Part 1) Bengaluru dated 07.08.2021) for the implementation of Four years Multi-Disciplinary Undergraduate Honours Degree Programmes with multiple exit and entry options effective from the academic year 2021-22.

Out of five options for the Four years Multi-Disciplinary Undergraduate Honours Degree Programmes with corresponding suggestive Curricular and Credit structures and proposed CBCS schemes, the 'Dual Degree in Two Disciplines' is selected and the approval of JSS Mahavidyapeetha for the same is obtained.

The draft Regulations of Higher Education Council, Government of Karnataka with appropriate amendments/ changes has to be issued by University of Mysore to all the Affiliated Colleges including the Autonomous Colleges. Since University of Mysore has not framed NEP-2020 Regulations, being an Autonomous College, the draft Regulations has been prepared with an option open for accommodating necessary modifications satisfying the Regulations issued by the University of Mysore and UGC Autonomous College Regulations.

The College is an Autonomous institution. Therefore, Calendar of Examination is prepared by the controller of Examination. Based on the

Academic Calendar. Academic Calendar is issued by the principal before the commencement of academic session. Examination Committee is constituted by the principal. This committee supervise internal test.

The Controller of Examinations receives the question papers for the Semester-End Examinations (SEE) set by the subject experts. Name of Paper setters are proposed by HoD of respective department and recommended by Principal through Controller of Examination. It is followed by the preparation and publications of a comprehensive time table. The examinations are conducted as per the Examination Time Table set by the Controller of Examinations. Thereafter, examiners from various colleges are invited and central valuation is conducted. The results are published within fifteen days of time and the same are published in the College website.

After the publication of results, the students are given the opportunity to go for revaluation/ challenge valuation. They are also provided with a photocopy of the answer scripts evaluated for their reference.

**Preamble:**

Education plays a significant role in building a nation. Our present education system is churning out youth who have to compete locally, regionally, nationally as well as globally. The 21<sup>st</sup> Century has opened up many new challenges in the field of Higher Education. The present alarming situation necessitates transformation and/or redesigning of the system, not only by introducing innovations but developing a "learner-centric" approach. Thus, there is a need to allow flexibility in the education system, so that students depending upon their interests can choose inter-disciplinary, intra-disciplinary and skill-based courses. The aim of higher education is to develop good, well rounded and creative individuals. It has to enable an individual to study one or more specialized areas of interest at a deeper level, while at the same time building character, ethical and constitutional values, intellectual curiosity, spirit of service and capabilities across disciplines including sciences, social sciences, arts, humanities as well as professional, technical and vocational crafts. At the society level higher education must enable development of an enlightened, socially conscious, knowledgeable and skilled nation that can uplift its people and construct and implement solutions to its own problems. It is also to bridge the increasing gap between an undergraduate degree and employability.

The New Education Policy (2019) initiated and developed by the Ministry of Human Resource Development (HRD), Govt. of India has brought several reforms in Indian education which also includes broad based multidisciplinary Undergraduate Education with 21<sup>st</sup> Century skills while developing specialized knowledge with disciplinary rigor. It is to bring equity, efficiency and academic excellence in National Higher Education System. The important ones include innovation and improvement in course-curricula, introduction of paradigm shift in learning and teaching pedagogy, evaluation and education system.

The National Education Policy has recommended a Multi-disciplinary Undergraduate Program with multiple exit and entry options with certificate/Diploma/degrees at each of the exits. A nationwide ecosystem of vibrant multi-disciplinary graded higher educational institutions are to be developed. In this context, a liberal approach has to be the basis of undergraduate education in all fields and disciplines at the undergraduate level, including professional education. Undergraduate curriculum needs to be focused on creativity and innovation, critical thinking and higher order thinking capacities, problem solving abilities,

team work, communication skills, more in-depth learning and mastery of curricula across fields.

The proposed Four-year Multidisciplinary Undergraduate program is a fundamental transformation to the current undergraduate education which replaces the conventional undergraduate programmes. #### **4. National Skills Qualifications Framework:**

The National Skills Qualifications Framework (NSQF) is a competency-based framework that organizes qualifications according to a series of knowledge, skills and aptitude. The NSQF levels, graded from one to ten, are defined in terms of learning outcomes which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning. National Occupational Standards (NOS) are statements of the skills, knowledge and understanding needed for effective performance in a job role and are expressed as outcomes of competent performance. They list down what an individual performing that task should know and also are able to do. These standards can form the benchmarks for various education and training programs to match with the job requirements. Just as each job role may require the performance of a number of tasks, the combination of NOSs corresponding to these tasks form the Qualification Pack (QP) for that job role. The NOSs and QPs for each job role corresponding to each level of the NSQF are being formulated by the respective Sector Skill Councils (SSCs) set up by National Skill Development Corporation (NSDC) with industry leadership. The curriculum which is based on NOSs and QPs would thus automatically comply with NSQF.

General Education has to be synchronized/ aligned with skill and Vocational Education as per National Skills Qualifications Framework. The level descriptors are given below as described in UGC Guidelines on National Skills Qualifications Framework. The curriculum should be designed in a manner that at the end of year-1, year-2 and year-3, students are able to meet below mentioned level descriptors for level 5, 6 and 7 of NSQF, respectively which are as given below:

Levels	Process required	Professional knowledge	Professional skill	Core skill	Responsibility
Level 5	Job that requires well developed skill, with clear choice of procedures in familiar context	Knowledge of facts, principles, processes and general concepts, in a field of work or study	A range of cognitive and practical skills required to accomplish tasks and solve problems by selecting and applying basic methods, tools materials and information	Desired mathematical skill, understanding of social, political and some skill of collecting and organizing information, communication	Responsibility for own work and learning & some responsibility for other's works and learning
Level 6	Demands wide range of specialized technical skill, clarity of knowledge and practice in broad range of activity involving standard / non-standard practices	Factual and Theoretical knowledge in broad contexts within a field of work or study	A range of cognitive and practical skills required to generate solutions to specific problems in a field of work or study	Reasonably good in Mathematical calculation, Understanding of social, political and, reasonably good in data collecting organizing information, and logical communication	Responsibility for own work and learning and full Responsibility for other's works and learning
Level 7	Requires a command of wide ranging specialized theoretical and practical skill, involving variable routine and non-routine context	Wide ranging, factual and theoretical knowledge in broad contexts within a field of work or study	Wide range of cognitive and practical skills required to generate solutions to specific problems in a field of work or study	Good logical and mathematical skill; understanding of Social, political and natural environment; ability in collecting and organizing information, communication and presentation skill	Full responsibility for output of group and development

Professional knowledge is what a learner should know and understand with reference to the subject;

Professional skills are what a learner should be able to do and; Core skills refer to basic skills involving dexterity and use of methods, materials, tools and instruments used to perform the job including IT skills needed for that job and Responsibility aspect determines the (i) nature of working relationship, (ii) level of responsibility for self and others, (iii) managing change and (iv) accountability for actions.

The progressive curriculum proposed shall position knowledge and skills required on the continuum of novice problem solvers (at entry level of the program) to expert problem solvers (by the time of graduation):

**At the end of first year** – Ability to solve well defined problems

**At the end of second year** – Ability to solve broadly defined problems

**At the end of third year** – Ability to solve complex problems that are ill-structured requiring multi-disciplinary skills to solve them

**During fourth year** – Experience of workplace problem solving in the form of internship or Research Experience preparing for higher education or Entrepreneurship Experience

It is optional to the candidate to exit or not, after two, four and six semesters of the undergraduate programme with Certificate, Diploma and with Regular Bachelor Degree, respectively. He/ she will be eligible to rejoin the programme at the exit level to complete either the diploma, degree or the honours degree. Further, all the candidates will be awarded Bachelor degrees on successful completion of Three academic years (Six Semesters) of the undergraduate programmes.

### **5. Academic Bank of Credits (ABC):**

The Academic Bank of Credits (ABC), a national-level facility will promote the flexibility of the curriculum framework and interdisciplinary/ multidisciplinary academic mobility of students across the Higher Education Institutions (HEIs) in the country with appropriate "credit transfer" mechanism. It is a mechanism to facilitate the students to choose their own learning path to attain a Degree/ Diploma/ Certificate, working on the principle of multiple entry and exit as well as anytime, anywhere, and any level of learning. ABC will enable the integration of multiple disciplines of higher learning leading to the desired learning outcomes including increased creativity, innovation, higher order thinking skills and critical analysis. ABC will provide significant autonomy to the students by providing an extensive choice of courses for a program of study, flexibility in curriculum, novel and engaging course options across a number of higher education disciplines/ institutions.

The multiple entry and exit options for students is facilitated at the Undergraduate and Master's levels. It would facilitate credit accumulation through the facility created by the ABC scheme in the "Academic Bank Account" opened for students across the country to transfer and

consolidate the credits earned by them by undergoing courses in any of the eligible HEIs. The ABC allows for credit redemption through the process of commuting the accrued credits in the Academic Bank Account maintained in the ABC for the purpose of fulfilling the credits requirements for the award of certificate/ diploma/ degree by the authorized HEIs. Upon collecting a certificate, diploma or degree, all the credits earned till then, in respect of that certificate, diploma or degree, shall stand debited and deleted from the account concerned. HEIs offering programmes with the multiple entry and exit system need to register in the ABC to enable acceptance of multidisciplinary courses, credit transfer, and credit acceptance.

The validity of credits earned will be for a maximum period of seven years or as specified by the Academic Bank of Credits (ABC). The procedure for depositing credits earned, its shelf life, redemption of credits, would be as per UGC (Establishment and Operationalization of ABC scheme in Higher Education) Regulations, 2021.

- (3) The Quality assurance of the implementation of ABC at the level of the registered autonomous college shall be developed by the autonomous college either through the Internal Quality Assurance Cell (IQAC) or any other appropriate structured mechanism as may be decided by the Registered Higher Education Institution.
- (4) Every Registered Higher Education shall upload, annually, on its website, a report of its activities vis a vis the Academic Bank of Credits, as well as of measures taken by it for Quality assurance, Quality sustenance and Quality enhancement.

This provision may be provided only once for a programme.
  - h. If a student attended C3 examination of I/ III/ V/ VII semesters and DROPED all courses of II/ IV/ VI/ VIII semesters, he/ she is not eligible to get the re-admission to same or other programme in the consecutive academic year. However he/ she may get the admission to III/ III/ IV year (III/ V/ VII semester) in the consecutive academic year with the approval of College Council. This provision may be provided only once for a programme. Any breakup semester/s (II/ IV/ VI/ VIII) can be continued by the candidates after the completion of the regular duration of the programme by registering for the courses with the re-admission.
  - i. Students re-admitted to any programme under Sec. 13.7, 13.8 (above two sections) are not eligible to participate in sports/ NSS/ NCC/ Selection of Student Representative/ any other extra-curricular activities.

## 16. Attendance

- a. The teacher handling a course shall be responsible for maintaining a record of attendance of students who have registered for the course.
- b. All faculty members shall intimate the Head of the Department at least seven calendar days before the last instruction day in the semester the particulars of all students who have less than 75% attendance in one or more courses. However any student who participated in the marked events (i.e., at University/ State/ National level NSS/ NCC/ Sports etc), the classes conducted in the duration actually participated shall be excluded from the **total number of classes conducted**.
- c. A candidate who has less than 75% attendance shall not be permitted to apply for the semester end examination in the course in which the shortfall exists. Registrations of such

students for those courses shall be treated as cancelled. If the course is a Core Course, the candidate should register for and repeat the course when it is offered next. If any candidate is willing to re-register a course after the regular period of admitted programme, he has to re-admit to the programme by paying prescribed fee with the approval of UG council.

### 17. Assessment and Evaluation

- a. Assessment and evaluation processes happen in a continuous mode. However, for reporting purposes, a semester is divided into 3 discrete components identified as C1, C2, and C3.
- b. The performance of a candidate in a course will be assessed with :-
  - i. The first component, C1 of assessment is for 20%. This will be based on test/ assignment/ attendance/ tutorial/ viva voce/ seminar. During the first half of the semester, the first 50% of the syllabus will be completed. This shall be consolidated during the 8th week of the semester.
  - ii. The second component, C2 of assessment is for 20%. This will be based on test, assignment/ attendance/ tutorial/ viva/ seminar. The continuous assessment and scores of second half of the semester will be consolidated during the 15th week of the semester. During the second half of the semester the remaining syllabus of the course will be completed.
  - iii. The outline for continuous assessment activities for C1 and C2 will be proposed by the teacher(s) concerned before the commencement of the semester and will be discussed and decided in the respective Departmental Council with the approval of BOS. The students should be informed about the modalities well in advance. The evaluated courses/ assignments during C1 and C2 of assessment are immediately returned to the candidates after obtaining acknowledgement in the register maintained by the concerned teacher for this purpose.
  - iv. If any course is designed with L: T: P credit pattern of X: 0: 2, Departmental Council with the approval of BOS can conduct C1 with the continuous assessment through a test for 20% and C2 with the continuous assessment through practical record and a test for 30%.
  - v. If any course is designed with L: T: P credits pattern of 0: 0: X, Departmental Council with the approval of BOS can conduct C1 with the continuous assessment through a test for 20% and C2 with the continuous assessment through practical record and a test for 30%.
  - vi. During the 18<sup>th</sup>-20<sup>th</sup> week of the semester, a semester-end examination (SEE) of 2/ 3 hours duration shall be conducted for each course. This forms the third/ final component

of assessment (C3) and the maximum marks for the final component will be 60% of the marks in Theory and 50% of the marks in Practical assigned to the respective course according to the Course structure. However, candidate has to apply for the C3 examination in the prescribed format with applicable fee to the Examination Section. If any candidate fails to apply within the specified date, he/ she will not be permitted to appear for C3 examination.

- c. Evaluation will be done on a continuous basis, three times during each semester. For the purpose of uniformity, particularly for inter-departmental transfer of credits, there will be a uniform procedure of examination to be adopted by all faculty members. There will be two continuous internal assessment components C1 and C2, and one Semester End Examination, C3 for each course during every semester.
- d. C1 and C2 examinations (of one to two hours duration) may employ one or more assessment tools such as tests, assignments/ paper presentation; laboratory test, etc. suitable to the course. This requires an element of openness. The students are to be informed in advance about the nature of assessment. A Student cannot repeat C1 and C2.
- e. **Provision of appeal for C1 and C2**
  - i. If a candidate is not satisfied with the evaluation of C1 and C2 components, he/ she can approach the Grievance Cell with the written submission together with all the facts, the assignments, C1 and C2 written papers etc., which were evaluated. He/ she can do so before the specified date by the department: ***The Grievance Cell is empowered to revise the marks if the case is genuine and is also empowered to levy penalty on the candidate as per the UGC/ University Autonomous College Regulations, if his/ her submission is found to be baseless and unduly motivated. This Grievance Cell may recommend for taking disciplinary/ corrective action on an evaluator if he/ she is found guilty. The decision taken by the Grievance Cell is final. For every programme there will be one Grievance Cell. The composition of the Grievance Cell is as follows:***

UG
1. Principal / Controller/ Deputy Controller of Examinations
2. Head of the Department
3. One senior faculty member/ subject expert of the other Department.

- ii. In case the evaluation of C1 and C2 components has found to be erratic, then such cases shall be referred to the UG Council to establish whether or not any examiner has been erratic in his evaluation, and to recommend if the committee so desires, any punitive measures in accordance with the affiliated University Rules and Regulations.
- iii. There shall be one Semester End Examination C3 of specified duration and percentage of marks in each course covering the entire syllabus prescribed for the course as below. The Semester End Examination is normally a written/ laboratory based examination. The duration of the practical examination has to be decided by the Departmental Council with the approval of BoS. Model Question Paper for each course has to be prepared by the teacher and the same should be forwarded to the Head of the Department.
- iv. The C3 examination schedule will be prepared by the Controller of Examination in consultation with the Examination Committee and to be displayed in the notice board at least one week before the examination.
- v. In case of a course with Practical Component or with only Practical Component, a practical examination will be conducted with both internal and external examiners. A candidate will be assessed on the following basis:

- ii. A candidate who desires to apply for retotalling and revaluation of his theory answer script of SEE only, may do so by paying the prescribed fee and by submitting the prescribed application form along with the relevant original marks card to the CoE, within the date as notified from time to time by the College.
- iii. The retotalling shall provide for checking whether all the answers have been valued and whether the totalling is correct or not. In case any answer or part has not been valued, that part may be referred to another valuer, and marks so awarded shall be added to the total. In

- case there is any mistake in totalling or carryover of marks from the inside sheets to the facing sheet, the CoE may have it corrected with the approval of the Principal.
- iv. The revaluation shall be referred to second/ third valuer (other than first/ second) by the Chairperson of BOE. If the revaluation is concerned to more than three courses in a discipline, BoE can carry out the revaluation.
  - v. The result of revaluation shall be announced within 20 days from the last date fixed for receipt of applications.
  - vi. If the difference between the original marks and the revaluation marks does not exceed 20% of the maximum marks prescribed for that theory paper, the average of the two shall be taken for the final award of the marks.
  - vii. If the difference between the original marks and the revaluation marks is more than 20% of the maximum prescribed for that theory paper, such scripts shall be got valued by BoE. The marks awarded by the BoE shall be the final award of marks and such scripts should be preserved at the Examination Section at least for four years from the date of examination.
  - viii. In case where one or more answers are not valued by the original valuer, then the marks awarded by the subsequent valuer, as far as these answers are concerned, shall be taken as they are, without averaging with the marks of the other.
  - ix. In cases where the difference between the original marks, first revaluation marks or/ and the second revaluation marks clearly indicate that a particular examiner has been erratic in his/ her valuation, then such cases shall be referred to the College Council to establish whether or not any valuer has been erratic in his evaluation, and to recommend if the Council so desires, any punitive measures in accordance with the affiliated University Rules and regulations.
  - x. If there is a complaint of a serious nature of erratic or unfair valuation in any Course for a group of candidates, the Principal may after a preliminary inquiry, order for special valuation of the concerned group or entire set of candidates in the unsecured. After such special valuation, a random sample of 10% of the answer scripts, subject to a minimum of 10, shall be referred for review.
  - xi. The provision for gracing shall also apply to such candidates after retotalling and revaluation. However the grace marks shall be shown separately in marks ledger and not in marks card.

## **20. Minimum for a Pass**

- A candidate shall be declared to have passed the program if he/ she secures at least 40% of marks or a CGPA of 4.0 (Course Alpha-Sign Grade P) in the aggregate of both internal

assessment and Semester End Examination marks put together in each unit such as theory papers/ practical/ field work/ internship/ project work/ dissertation/ viva-voce, provided the candidate has secured at least 40% of marks in the Semester End Examinations in each unit.

- The candidates who pass all the semester examinations in the first attempt are eligible for ranks provided they secure at least CGPA of 6.01 (Alpha-Sign Grade B).
- The results of the candidates who have passed the last semester examination but not passed the lower semester examinations shall be declared as NCL (Not Completed the Lower Semester Examinations). Such candidates shall be eligible for the degree only after completion of all the lower semester examinations.
- A candidate who passes the semester examinations in parts is eligible for only Class, CGPA and Alpha-Sign Grade but not for ranking.
- There is no minimum marks requirement for Internal Assessment to appear for SEE.
- A candidate who fails in any of the units such as theory papers/ practical/ field work/ project work/ dissertation/ viva-voce, shall reappear in that unit as per the provisions made and pass the examination.

### **21. Carry Over Provision**

- The candidates who fail in lower semester examinations may go to the higher semesters and take the lower semester examinations.

### **22. Improvement of Results**

- A candidate who has passed in all the courses of a semester may be permitted to improve the result by reappearing for the whole examination of that semester.
- The reappearance may be permitted during the period  $N * 2$  years (where N refers to duration of the program) without restricting it to the subsequent examination only.
- The student shall apply for improvement examination within 45 days from the date of announcement of the results of examinations.
- If a candidate passes in all the subjects in reappearance, higher of the two aggregate marks secured by the candidate shall be awarded for that semester. In case the candidate fails in the reappearance, candidate shall retain the earlier result.
- A candidate who has appeared for improvement examination is eligible for class only and not for ranking.

improvement shall retain the IA marks already obtained.

- A candidate who fails in any of the semester examinations may be permitted to take the examinations again at a subsequent appearance as per the syllabus and scheme of examination in vogue at the time the candidate took the examination for the first time. This facility shall be limited to a period of two years.

**22.1 Classification of Successful Candidates:**

The declaration of result is based on the Semester Grade Point Average (SGPA) earned towards the end of each semester or the Cumulative Grade Point Average (CGPA) earned towards the end of all the eight semesters of the programme and the corresponding overall alpha-sign grades.

An alpha-sign grade, the eight point grading system, as described below is adopted. If some candidates exit at the completion of first, second or third year of the programme with Certificate, Diploma or the Basic Degree, respectively, then the results at the end of second, fourth or sixth semesters is also classified on the basis of the CGPA obtained in the two, four or six semesters, respectively.

**Table A: Final Result/ Grades Description:**

Semester/ Programme % Marks	Result / Class Description	Semester GPA/ Programme CGPA	Alpha-Sign/ Letter Grade
80.1 - 90.0	First Class Exemplary	8.01 - 9.00	A+ (Excellent)
70.1 - 80.0	First Class Distinction	7.01 - 8.00	A (Very Good)
60.1 - 70.0	First Class	6.01 - 7.00	B+ (Good)
55.1 - 60.0	High Second Class	5.51 - 6.00	B (Above average)
50.1 - 55.0	Second Class	5.01 - 5.50	C (Average)
40.0 - 50.0	Pass Class	4.00 - 5.00	P (Pass)
Below 40	Fail / Reappear	Below 4.00	F (Fail/Reappear)
Absent	Ab (Absent)	0	Ab (Absent)

**22.2 Calculation of Semester Grade Point Average (SGPA):**

The Grade Point (GP) in a course is assigned on the basis of marks scored in that course as per the Table B. Any fraction of mark in the borderline less than 0.50 be ignored in assigning GP and the fractions of 0.50 or more be rounded off to the next integer. The Credit Point (CP) shall then be calculated as the product of the GP earned and the credit for the course. The total CP

for a semester is the sum of CP of all the courses of the semester. The SGPA for a semester is computed by dividing the total CP of all the courses by the total credits of the semester. It is illustrated below with typical examples.

**Table B: Conversion of Percentage of Marks into Grade Points in a Course/Paper**

Percentage of marks in theory/ practical	Grade Point (GP)	Percentage of marks in theory/ practical	Grade Point (GP)
98-100	10	63-67	6.5
93-97	9.5	58-62	6.0
88-92	9.0	53-57	5.5
83-87	8.5	48-52	5.0
78-82	8.0	43-47	4.5
73-77	7.5	40-42	4.0
68-72	7.0	Below 40	0

#### 22.2.2 Calculation of Cumulative Grade Point Average (CGPA):

The Cumulative Grade Point Average (CGPA) at the end of the second, fourth, sixth and eighth semesters shall be calculated as the weighted average of the semester grade point averages (SGPA) of two, four, six and eight semesters, respectively. The CGPA is

obtained by dividing the total of semester credit weightages by the maximum credits for the programme.

The following are the sample illustrations of computing semester grade point averages (SGPA) and cumulative grade point averages (CGPA) and the Alpha – sign grades assigned.
