RESEARCH AND DEVELOPMENT CELL

RESEARCH POLICY

The Research and Development (R&D) Cell of JSS College of Arts, Commerce, and Science is dedicated to advancing knowledge, fostering innovation, and promoting research excellence across various disciplines. This policy outlines the guiding principles, procedures, and standards for research activities within the institution.

Mission

The R&D Cell seeks to facilitate high-quality research and development activities that contribute to academic enrichment, societal progress, and the overall advancement of knowledge in Kannada, English, Physics, Chemistry, Commerce, Mathematics, Biochemistry, Biotechnology, Social Work and other subjects.

Objectives

- To encourage a culture of research and innovation among faculty and students.
- To support interdisciplinary research collaborations.
- To enhance the visibility and impact of research outputs.
- To facilitate minor research activities in all 15 PG programs during dissertation work.

Research Governance

Ethics and Integrity

All research activities must adhere to the highest ethical standards. Researchers are expected to conduct their work with integrity, honesty, and transparency, following relevant ethical guidelines and obtaining necessary approvals.

Compliance

Researchers should comply with local, national, and international laws, regulations, and policies related to research activities.

Funding and Resource Allocation

- The R&D Cell will actively seek external funding opportunities to support research projects across diverse domains.
- Resources will be allocated based on the merit, feasibility, and impact of proposed research projects.
- Special provisions will be made for facilitating minor research projects within the PG programs, and for students of research interest in the UG Programs

Research Collaboration

- The R&D Cell encourages collaboration with external institutions, industry partners, and other stakeholders.
- Joint research initiatives, conferences, and workshops will be promoted to foster interdisciplinary collaboration.

Knowledge Transfer and Dissemination

- Researchers are encouraged to publish their findings in reputable journals and present at conferences.
- The R&D Cell will support the dissemination of research outcomes through workshops, seminars, and public engagement activities.

Research Support and Development Programs

- The R&D Cell will organize discipline-specific training programs, workshops, and seminars to enhance the research skills of faculty and students.
- Mentorship programs will be established to provide guidance and support to novice researchers.

Monitoring and Evaluation

- The R&D Cell will establish a systematic monitoring and evaluation process to assess the progress and impact of research activities.
- Regular assessments will be conducted to ensure the quality and relevance of research projects, including minor research in PG programs.

Review and Revision

- This policy will undergo regular reviews to adapt to changing institutional needs and evolving best practices in research.
