

Career Counselling: Students at the college level will have quite a lot of question regarding the study and employment opportunities. The objective here is to help the students in career and vocational exploration. Within this domain, counseling assists individuals in selecting an area of study, choosing a career, or clarifying attributes. Exploration of personal values, goals, and characteristics, combined with assessments of career interests, enhance the student's successful transition through higher education. The college has a career counselling centre to meet the needs of the students. The faculties of the college are regularly involved in this activity.
